This diagram shows the top view of the control panel. It features a large circular port on the left, a series of smaller circular ports in the center, and a large circular port on the right. Below the central ports are two hexagonal ports and two oval ports. On the far left, there are two hexagonal ports with attached connectors. On the far right, there is a small circular port.

This diagram illustrates the components of a water pump assembly in an exploded view. The parts are numbered as follows:

- 1**: The main cylindrical pump housing.
- 2**: The top cap of the pump housing.
- 3**: A small circular gasket or seal located between the top cap and the housing.
- 4**: A vertical pipe or riser pipe extending from the center of the top cap.
- 5**: A rectangular access panel or door on the side of the pump housing.
- 6**: A horizontal pipe or riser pipe extending from the side of the top cap.
- 7**: A small circular gasket or seal located between the horizontal pipe and the top cap.
- 8**: A horizontal pipe or riser pipe extending from the side of the top cap.
- 9**: A rectangular control box or valve assembly mounted on the side of the pump housing.
- 10**: A small circular gasket or seal located between the control box and the top cap.
